

Eden Church VBS 2020: The Armor of God Breastplate of Righteousness Water Game

Materials:

1. Strings, cones, or sidewalk chalk - anything that can help you mark out two separate areas outdoors - one for each team or person (if only 2 people)
2. Water guns/squirters - one for each person
3. Water - for refills - perhaps in a bucket or wading pool
4. Black Plastic Garbage Bag - one for each person
5. Scissors
6. Stopwatch

Directions:

1. Mark off two squares of space in the yard or driveway, using the string (cones, sidewalk chalk, or whatever else will work for you). Make sure the two squares are facing one another, and are large enough for each team to move around in a little bit, but within range of one another. Test out the reach of the water guns/squirters.
2. Each child will need to cut three holes in his or her trash bag, next - one on the bottom for the head, and two on opposite sides for the arms. The more complete your armor is (the smaller the holes in it and the more of you it covers), the more likely you are to succeed in this game.
3. Next, each child will need to put on a trash bag, pick up a water gun, go to his or her team's square, and fill up the water gun.
4. Next, set the stopwatch/timer for 60 seconds, and say, "Go!"
5. The teams have 60 seconds to try to get one other as wet as possible. The team members cannot leave their square or designated area.
6. When the 60 seconds is up, have the teams put down their water guns and take off their trash bag body armor. The team that managed to keep its clothes the driest wins the game.
